Welcome to SCIFTS' Suppliers' Night Expo

March 4, 2025

The Southern California Institute of Food Technologists Section welcomes you. Our section has held this event for over half a century and we have raised close to twenty million dollars in the process. We take the proceeds from Suppliers' Night Expo to sustain our industry by providing funds to support both students and colleges in the advancement of food science. Our goal is to provide an abundant and safe food supply and, hence, safe and prosperous society.

We would like to encourage you to make use of this Buyer's Guide to help promote the companies who have participated in making inroads to projects and business in your firms. This is a way we can reward them for their contribution to our continued success and our efforts to enhance food science.

We would also like you to look at methods within your own sphere of influence to support our local Universities' Food Science programs. Your knowledge and resources can be a major benefit to schools who are in need during these times.

Sincerely,

Dan Rosson

When Precision Meets Passion

For over 90 years, we've perfected the art of distilling essential oils.

At Citrus & Allied, we don't just process essential oils – we elevate them. We take the time to understand each product's unique characteristics, using lower temperatures and higher vacuum during processing to preserve delicate compounds.

Beyond our renowned citrus expertise, we're masters at fractionating spice and mint oils. Whether you need concentrated, redistilled, or rectified oils, our skilled team transforms your stock into exceptional ingredients that set your products apart.

When experience matters, trust the company that's been defining excellence since 1933.
